

Citeline Connect

A data-driven, patient engagement & recruitment platform

Citeline Connect can help you drive consistent, successful clinical trial recruitment – and put it on repeat. With our multifaceted approach to patient engagement and recruitment, we help sponsors develop a data-driven recruitment strategy, reach the right patients, and drive enrollments. Additionally, we measure trial performance, including sites and partners, to inform your decisions and shape the strategy for your next trial, giving you a head start against your competition.

Inform strategy

Understand the competitive landscape for your disease area to inform your recruitment strategy and learn how to stand out in a competitive market.

Diversify recruitment

Do not rely solely on one method to enroll patients into your clinical trials. Diversify your recruitment channels to accelerate enrollment and achieve your goals more efficiently.

Drive patient engagement

Increase patient awareness of your trial with patient-friendly websites and build trust with patients, caregivers, and HCPs by showcasing your commitment to transparency.

Analyze performance

Distill insights on performance at portfolio or study level, including industry, site and partner performance to iterate and refine your recruitment strategy and rectify bottlenecks before they become a problem.

Our platform approach enables us to partner with you and scale alongside your evolving patient engagement and recruitment needs.
