The Global Generics and Biosimilars Awards, now in its 11th year, celebrates the greatest achievements and innovations across the development, authorisation, marketing and distribution of global off-patent pharmaceuticals.

Held during CPhI Worldwide week in Milan, these illustrious awards provide a unique opportunity for the industry to come together to discuss future opportunities and challenges and shine a light on the companies and individuals driving positive change.

Winners will be recognised across 14 categories, including Biosimilar Initiative of the Year, Leader of the Year, Business Development of the Year, API Supplier of the Year, and Campaign of the Year.

This year's Judging Panel is made up of senior representatives from the generics, biosimilars and value-added medicines industries - covering all disciplines to ensure that the judging process is objective and fair.

"The Awards acknowledge the tremendous achievements made by the industry in delivering high-quality medicines, to those around the globe, who need them most."
