Recruitment for Rezolute’s Pediatric Congenital Hyperinsulinism Trial

July 2023
Case Study | Recruitment for Rezolute’s Pediatric Congenital Hyperinsulinism Trial

Challenges & Priorities

- Recruiting pediatric, ultra-rare disease patients
- Increasing awareness of the clinical trial globally
- Making smart, strategic investments with clear ROI
- Managing internal and external vendors centrally

How Did Citeline Connect Help?

1. Launched a global, patient-centric trial education website
2. Deployed pre-screeners for caregivers to check children’s eligibility
3. Tapped into the reach of 9 different recruitment partners simultaneously
Case Study | Recruitment for Rezolute’s Pediatric Congenital Hyperinsulinism Trial

The Results

146
Patients surveyed using pre-screener technology

14
Patients automatically referred to the closest site

2
Patients randomized into the clinical trial

“Our study’s site through Citeline Connect gave us a streamlined, single-source tool that facilitated our collaborative efforts with rare disease advocacy groups around the world to generate awareness about our study and efficiently, effectively recruit potential study participants. The Citeline Connect team was responsive and helpful throughout the development, launch and active phases of our site enabling us to focus on study execution.”

Davelyn Hood, MD, MBA, Director of Scientific and Patient Affairs at Rezolute
